The Audi A4 is a line of compact  
executive cars produced since  
1994 by the German car  
manufacturer Audi, a subsidiary  
of the Volkswagen Group. The A4  
has been built in five generations

B7 was a styling upgrade only of  
the B6. The only functional  
change is that the engine  
management diagnostics are  
done via CAN bus on the B7  
because of a change in the  
regulations. SO new engine ECUs  
are fitted, some with new  
mapping.

The overnight success of the 'Hoodride' phenomenon inspired a generation of car fanatics, who couldn't afford to restore a car to show condition but still wanted a good looking cool car. At last, you could be cool and stand out from the crowd on the tiniest of budgets. The look of the cars that resulted was often so honest, unspoiled and characterful, that it began to inspire the media; even Hollywood movie stars and

celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, embracing the rising prices, finding ways to still be cool on a tight budget and producing a micro-industry that still manages to embrace the 'Built not bought' ethos. Patina Volkswagens, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, clubs and hobbyists, as well as the different styles of build, meaning every single car has a style all of its own.
