Education inequality also arises from the standard and quality of knowledge and study provided by various institutes. Although we have the Indian Institute of Technology and Indian Institute of Management, which have worldwide reputations, we are not able to provide the same from the other institutions, thereby creating a gap in the intellectual data passed and acquired.

Education inequality in India | **Development** | **RESET.org**

This book looks at the reproduction of social inequalities within the educational system in India, and how this is contested in different ways. It examines whether the concept of `education for all' is just a mechanically conceived policy target to chasing enrolment and attendance or whether it is a larger social goal and a deeper political statement about the need for attacking entrenched social inequalities.

Education and Inequality in India: A Classroom View — 1st —

By educational inequality we mean a system under which all the sections of society are not given equal opportunity to get education.In India changes in political,economic and social life are as a result of educational inequality. Those who are educated take the maximum benefit out of the system and take maximum concessions from those in authority.Due to being better educated they have better economic status can spare time for the activities and institutions which can bring changes in society.

Gender inequalities, and their social causes, impact India's sex ratio, women's health over their lifetimes, their educational attainment, and economic conditions. Gender inequality in India is a multifaceted issue that concerns men and women. Some argue that various gender equality indices place men at a disadvantage.

Gender inequality in India — **Wikipedia**

The public or private schools contribute to the ranks of higher education. With widespread inequality in opportunities for education resulting from the operation of socio-economic factors education seems to have failed as an effective equalizing factor.However it is not that education has not contributed at all to the process of upward social mobility but the momentum has been slow considering the social fabric of the country.
