This pack provides invaluable practice for those sitting the new Maths SATs papers as well as for those preparing for 11+ tests.

The activities in this book are designed both to help children to learn and to understand math concepts, and also to prepare them for taking SATS papers at KS2. There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on common misconceptions, and if children are given opportunities for discussion and explanation of their own understanding. Children can also feel stigmatized by being made to focus on their own errors. Mike Spooner has developed activities that present already completed work which children then assess, correct and discuss - in this way they can analyze mistakes without damage to their own self-esteem. The activities are presented in the same format as the SATS papers, to give children practice in coping with that format. The book also contains writing frames that children can use to structure their discussions of math problems.

This book contains all the questions that came in SATs exams from 2016 onwards and categorised them into simple topics. Even more, we have also gone through all the questions that are relevant to the current syllabus from 2010 to 2015 and put them in their respective topics. If you complete this book, CONGRATULATIONS, you have solved all the questions that have come in exams ever since 2016. This book is created with one simple idea- the more you practise, the better you get. But if you target that practice topic wise, the results are extraordinary. The book can be used to revise your learning. You can choose any of the individual topics and see where your preparations are at.

Level: KS2 Subject: Maths Don't panic, Letts will get you through your test. \* Get ready for SATs with 2 sets of tests\* Prepare with realistic SATs-style questions\* Check the answers to see how well you're doing These practice papers have been made ready for the 2019 tests, so you can be too! Each set includes Paper 1 (arithmetic), Paper 2 (reasoning) and Paper 3 (reasoning). They have everything you need to take and mark the tests, making it really simple to prepare for your SATs.
