The Investment Model was put forward by Rusbult et al. (2001), as a development of Social Exchange Theory. The rationale for developing SET further was that many couples stay together despite the costs outweighing the rewards, so there must be some other factors that keep them together. Rusbult's Investment Model investigates what these other factors might be.

What is Real Estate Note

Investing? In its purist form, real estate note investing is acting as the bank and receiving payments from borrowers on notes secured by property. A key point is that these notes are backed and secured by underlying collateral in the form of real estate, which provides a secured investment unlike stocks or mutual funds.
