Arctic Book Review: Relics of the Franklin Expedition

The Rae–Richardson Arctic Expedition embarked in 1848 along the route of the Franklin's ships. They found no trace of the expedition, but heard Inuit accounts of some 30 members of the crew found dead at a makeshift encampment on King William Island. The mutilated corpses and contents of the kettles revealed desperate acts of cannibalism. This story was supported by hundred of bone

Relics of the Franklin Expedition – McFarland
Sir John Franklin's Arctic expedition departed England in 1845 with two Royal Navy bomb vessels, 129 men and three years' worth of provisions. None were seen again until nearly a decade later, when their bleached bones, broken instruments, books, papers and personal effects began to be recovered on Canada's King William Island.
