KOHLER Flex combines the in-cylinder combustion of KDI engines, made possible by state-of-the-art high-pressure common rail (2000 bar), four valves head, turbocharger and cooled-EGR, and the most compact aftertreatment devices (DOC, DPF and SCR) to comply with all emission requirements. Each combination of KOHLER Flex has been designed in line with the all-in-one philosophy, with the objective of minimizing change for engine installation into existing packages.
