Toyota Surf LN130, 21
2.4L 2L-TE Diesel
Te Engine
engine. Symptom:

The Toyota Surf came into the workshop with a no start condition.

Diagnostics: Cranking the vehicle was no issue and the first check for any diesel that wont start is to crack a diesel fuel line to check for fuel pressure.

Toyota Diesel 2L
2LTE (electronic injection) A Common Fault with the 2.4LT Surf engines is the turbo pressure sensor causes the red engine 'check' light to come on if there is a faulty vacuum hose.

Sometimes the Engine just loses power, as there is a leak in the system,

Download Free Vacuum Circuit

and no boost is being made. One big area the vacuum hoses seem to come loose is around the intake manifold near the throttle.

Additional Info: I am selling my Toyota turbo diesel project truck. The truck is a rare 1985 Toyota Turbo Diesel standard cab, ong bed. This is an original factory turbo diesel, nd NOT a conversion! Not many of these original trucks remain, nd they do not come up for sale too often. When I

Download Free Vacuum Circuit

bought this truck, the
engine was seized.
