South Africa's floral heritage, one of the richest in the world, continues to capture the excited attention of botanists and laymen. Like the land itself, its flora provides an abundance of contrasts, from the bashful disa to the proudly beautiful strelitzia, the majestic giant protea and the wealth of ericas which share its rocky kingdom, the blazing carpets of daisies of Namaqualand, to the burnished spears of an aloe-covered hillside. The first chapter introduces the reader to the wonders of our floral kingdom while brief captions identify each flower and indicate when and where it is likely to be seen. Essentially all the more decorative families of flowering plants have been covered. Plates are grouped according to families and a brief commentary introduces each family. Scientific names are used throughout with common names being given where these are accepted, as well as anecdotes

relating to utilitarian, medicinal or horticultural uses. The guide concludes with a useful bibliography of illustrated publications on South African wild flowers, providing guidelines for further reading, and an index.

Namaqualand is justifiably famous for the floral wonderland it becomes in spring, when seas of orange, yellow and white flowers carpet the land. In this region one finds not only carpets of annuals, but also a wide variety of geophytes (bulbs), dwarf shrubs and succulents - some 3,800 species, of which 28% are endemic. This book introduces nearly 600 species, highlighting those most commonly found, most conspicuous, spectacular or interesting, as well as endemics. An introduction touches on the species selection for the book, the climatic and topographical subregions within Namaqualand, plant names and uses and conservation issues. The concise species descriptions also give seed and fruit details, uses, local growing conditions and flowering times, and are accompanied by beautiful full-color photographs. An illustrated glossary and comprehensive index round off the book. This is a must-have guide for visitors to Namaqualand, or for anyone interested in the wild flowers of southern Africa.
